Results **1 - 10** of about **4,590**. (0.13 sec)

[PS] [Design considerations for an RTSP-based prefix caching proxy service for multimedia streams](#)

[\[PS\] from princeton.edu](#)

S Gruber, J Rexford... - 1999 - cs.princeton.edu
 ... change in meta-information or audio/**video content** – cached prefix may be inconsistent with suffix ...
 send DESCRIBE/SETUP while sending prefix to client – do not send the suffix if the **stream** has
 changed (error) ... Range header missing from **server** response to PLAY ...

[Streaming video over the Internet: approaches and directions](#)

[\[PDF\] from psu.edu](#)

D Wu, YT Hou, W Zhu, YO Zhang... - ... and Systems for **Video** ... 2001 - ieeeexplore.ieee.org
 ... Continuous media distribution services include network filtering, application-level multicast, and
content replication, which are ... As described in Section III-A-2, the filter at the **video server** ... WU et
 al.: **STREAMING VIDEO OVER THE INTERNET: APPROACHES AND DIRECTIONS** ...

[Performance guarantees for web server end-systems: A control-theoretical approach](#)

[\[PDF\] from psu.edu](#)

TF Abdelzaher, KG Shin... - IEEE Transactions on Parallel ... 2002 - computer.org
 ... Multimedia connections, such as **streaming** audio and **video**, impose very different load ... However,
 a full-fledged evaluation of this approach in the presence of dynamically generated **content** is
 outside the scope of this paper. We consider QoS-sensitive workloads. ...
[Cited by 454](#) - [Related articles](#) - [SL Direct](#) - [All 23 versions](#)

[PDF] [Video streaming: Concepts, algorithms, and systems](#)

[\[PDF\] from psu.edu](#)

JG Apostolopoulos, W Tan... - Handbook of **Video** Databases, 2003 - CiteSeer
 ... such as the multi-pass encoding that is typically performed for DVD **content**. ... that the network
 provides some type of preferential delivery service or **performance** guarantees, eg ... algorithms
 and standards that are especially relevant for **video** communication and **video streaming**. ...
[Cited by 77](#) - [Related articles](#) - [View as HTML](#) - [All 24 versions](#)

[Proxy prefix caching for multimedia streams](#)

[\[PDF\] from psu.edu](#)

S Sen, J Rexford... - INFOCOM'99. Eighteenth ... 1999 - ieeeexplore.ieee.org
 ... transmission schedule, the proxy can store information about the sizes of the frames in the **video**
stream. ... d for Blues Brothers (b₁ = 0, b₂ = 8 MB) from the **server**. ... Online computation is also required
 when trans-mitting live **video content** with an initial prerecorded segment. ...
[Cited by 576](#) - [Related articles](#) - [SL Direct](#) - [All 12 versions](#)

[Architecture of a modular streaming media server for content delivery networks](#)

[\[PDF\] from psu.edu](#)

S Roy, J Arkkoon... - Multimedia and Expo, 2003. ICME' ... 2003 - ieeeexplore.ieee.org
 ... requires relatively high bandwidths and stable end-to-end delays, so that the **video** resolution
 is ... the network can re-act to local changes in conditions much faster than a **content server** in the ...
 A **streaming server** at the edge could adjust the media **stream** to utilize current network ...
[Cited by 11](#) - [Related articles](#) - [All 12 versions](#)

[PDF] [Realmedia streaming performance on an IEEE 802.11 b wireless LAN](#)

[\[PDF\] from psu.edu](#)

T Kuang... - Proc. Of IASTED Wireless and Optical ... 2001 - CiteSeer
 ... The network moves the media **content** between **server** and client, reliably or unreliably. ... This result
 indicates that the 10 Mbps Ethernet con- nection between the **server** and the AP is ... switches to
 a 200 kbps **video streaming** rate (the target rate of this **video stream**), and maintains ...
[Cited by 20](#) - [Related articles](#) - [View as HTML](#) - [All 16 versions](#)

[PALS: peer-to-peer adaptive layered streaming](#)

[\[PDF\] from psu.edu](#)

R Rajala... - ... systems support for digital audio and video, 2003 - portal.ecm.org
 ... quality adaptation (QA) mechanism for congestion controlled playback of layer encoded **video**
 over the ... Obtaining this information before **content** delivery starts leads to a small overhead with ...
 QA mechanism for PALS and the sender-based QA mecha- nism for unicast **streaming**. ...
[Cited by 181](#) - [Related articles](#) - [All 13 versions](#)

[Advances in channel-adaptive video streaming](#)

[\[PDF\] from psu.edu](#)

B Girod, M Kalman, YJ Liang... - ... and Mobile Computing, 2002 - Wiley Online Library
 ... to fill with data and for playout to begin after the user makes a **request**. ... need for retransmission,
 multiple representations of certain frames are prestored at the **streaming server**. ... Picture Type
 Selection (OPTS) within an RD framework, which considers **video content**, channel loss ...
[Cited by 96](#) - [Related articles](#) - [All 13 versions](#)

[Caching video objects: layers vs versions?](#)

[\[PDF\] from psu.edu](#)

F Hartanto, J Kangasharju... - Multimedia and Expo, ... 2002 - ieeeexplore.ieee.org
 ... 3. Although we should use versions to **stream** first-time requests from origin **server** to client, we
 should not cache versions (unless all the requests for a specific **video** are for ... T. Abdelzaher and
 N. Bhatti, "Web **server** qos management by adap- tive **content** delivery," in Pmc. ...
